Summary

Fresh Graduate with an Applied Bachelor's degree in Informatics Engineering from Politeknik Elektronika Negeri Surabaya (PENS). Experienced through internships and academic projects in software development, quality assurance, technical documentation, and system implementation. Familiar with Agile software development practices, with strong analytical, problem-solving, and collaboration skills gained from working in cross-functional teams.

Education

Politeknik Elektronika Negeri Surabaya 2025 – 2026

Applied Bachelor's Degree in Informatics Engineering
GPA: 3.78/4.00

Politeknik Elektronika Negeri Surabaya 2022 - 2025

Associate Degree in Informatics Engineering
GPA: 3.59/4.00

Professional Experience

Product Knowledge, Product Owner, Quality Assurance

PT. Inovasi Teknologi Solusindo (Trustmedis) | Surabaya

July 2024 - December 2024

- Collaborated with Product Owners and development teams throughout Agile software development sprints.
- Conducted functional, integration, and regression testing for healthcare management systems.
- Identified, documented, and tracked software defects using Redmine.
- Assisted in product documentation, user acceptance testing (UAT), release validation, and quality improvement through cross-functional collaboration.

Projects

Comparative Evaluation of Fuzzy Inference System Models for Flood Vulnerability Assessment

Final Project | Author & Full Stack Developer

November 2025 – July 2026

Tech Stack: Next.js, Python, FastAPI, Supabase, PostgreSQL, Leaflet, QGIS

- Designed and developed a web-based GIS application for flood vulnerability assessment using spatial open data.
- Implemented and evaluated Mamdani, Sugeno, and Tsukamoto Fuzzy Inference System models.
- Developed backend services and integrated them with a responsive frontend.

Hotel Management System

Academic Project | Front-End Developer

May 2026

Tech Stack: Laravel, PostgreSQL

- Collaborated with a development team to build a hotel management system.
- Developed responsive guest management interfaces using Laravel.
- Integrated frontend pages with backend data to ensure smooth user interactions.

Flood Risk Mapping Visualization in Surabaya City Based on Open Map Data Using the Fuzzy Method

Final Project | Author & Full Stack Developer

July 2024 – June 2025

Tech Stack: Next.js, Python, FastAPI, Supabase, PostgreSQL, Metabase, QGIS

- Developed a GIS-based flood vulnerability visualization system.
- Implemented the Fuzzy Mamdani method for flood risk assessment.
- Built backend services using Python and integrated them with Next.js.
- Visualized flood information through interactive dashboards and maps.

Wallink

Academic Project | Front-End Developer & Quality Assurance

February 2024 – July 2024

Tech Stack: Flutter, Figma, SQLite

- Collaborated in an Agile development team to build a mobile application.
- Developed responsive Flutter interfaces based on Figma designs.
- Performed functional testing and verified bug fixes to improve application quality.

PensStore

Academic Project | Front-End Developer

February 2024 – June 2024

Tech Stack: Flutter, Figma, SQLite

- Developed responsive mobile interfaces using Flutter.
- Implemented Figma designs into functional application screens.
- Collaborated with team members to improve application usability.

Organizations & Leadership

Student Speaker | Informatics Engineering Program Socialization 2026
Politeknik Elektronika Negeri Surabaya (PENS)

- Represented the Applied Informatics Engineering program during outreach activities.
- Shared academic experiences and introduced the study program to prospective students.

Member | Software Development Community 2022 – Present

- Collaborated on software development projects and participated in technical workshops.
- Expanded knowledge of software engineering practices and emerging technologies.

Event Division | LKMM-TD PENS 2024

- Planned and coordinated event activities and logistics.
- Managed schedules and participant engagement during the program.

Secretary | DKR Badegan 2022 – 2023

- Managed organizational administration, documentation, and official correspondence.

- Prepared meeting minutes, reports, and administrative documents.
- Coordinated communication between members and organizational leaders.

Liaison Officer | Dynamic HIMIT PENS

2023

- Served as the primary liaison between the organizing committee and external participants.
- Coordinated communication to ensure smooth event execution.

Achievements

Gold Medal | Physics Olympiad | Province Level

CV. Divya Cahaya Prestasi, 2021

Bronze Medal | Mathematics Olympiad | National Level

CV. Divya Cahaya Prestasi, 2021

Gold Medal | English Olympiad | National Level

CV. Divya Cahaya Prestasi, 2021

Finalis Top 10 | Essay Competition| National Level

Universitas Gunung Jati, 2024

Authored the essay "Sustainable Agricultural Sector Development as a Creative Approach to Supporting the Sustainable Development Goals (SDGs)"

Skills

Programming Languages: Python, PHP, JavaScript, TypeScript, Dart, HTML5, CSS3, SQL

Frameworks & Libraries: Next.js, React, Laravel, Flutter, FastAPI, Vue.js, Tailwind CSS, Bootstrap

Databases: PostgreSQL, MySQL, SQLite, Supabase

Tools & Platforms: Git, GitHub, Postman, Redmine, Figma, Notion, Google Docs, Markdown, Visual Studio Code

GIS & Data Visualization: Leaflet, QGIS, Metabase, Grafana

Methodologies: Agile, Scrum

Languages: Indonesian (Native), English (Intermediate)
